

# Petition to the Honourable Tony Clement, President of the Treasury Board

We, the undersigned residents of Canada, wish to bring to your attention that we depend on federal public services.

Public services are a major contributor to the security and prosperity of our families and communities. Cuts to services undermine our safety, our health and our environment. Eliminating public service jobs reduces household income and consumer spending, hurting businesses and our economy.

We call upon you, as President of the Treasury Board, to commit your government to:

- **Reverse plans to cut jobs and public services by \$4-billion.**
- **Maintain and improve federal public services to all Canadians.**
- **Reverse corporate tax cuts as a cost effective way to reduce the deficit.**
