EVICT FORD

OCCUPY TORONTO

March and Rally Sat Nov 19th

Meet at St James Park at 2:00pm

OccupyTO: Hell NO we WONT GO! Evict Rob Ford Instead!

Rob Ford has had over a year to make his point, he's had his tantrum, and now judging by the polls, businesses and residents have had enough and it's time for him to go.

Initially we thought "end the gravy train" was a vague message, but now we know "gravy" included plans to cut Libraries, Police, Snow and Road clearing, city planning, the environment and public parks. The latest edition to the gravy train was senior citizens and the disabled. This gravy train is getting crowded!

He's already cost the city millions of dollars in transit schemes, and he must be evicted before the winter, before the damage he does to city infrastructure and social services becomes impossible to repair.

The local residents are complaining and they're fed up! Even his old supporters are getting tired of him.

Enough is Enough, It's time to EVICT ROB FORD!

Mayor Ford has caused chaos in our local government, waged war on our city workers and bullied through a flawed transit plan that provides less service at a much higher cost.

He's been an embarrassment to himself and our city! And this is only the beginning.

Join us **Saturday the 19th** and lets all tell Ford that Occupy Toronto isn't leaving, it's time for HIM to go!

Solidarity with our brothers and sisters in New York! Solidarity with the global movement! Lets show them our strength this Saturday!
