

# PSAC ONTARIO COUNCIL SEPTEMBER 15, 2012 NATIONAL DAY OF ACTION PHOTO ALBUM

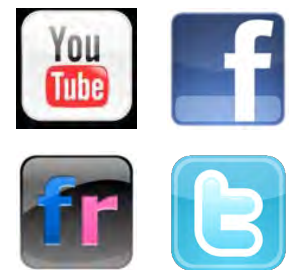

Despite this difficult time, our members continue to stand up against these cuts for their colleagues, themselves and their communities.

PSAC has been joined by the entire labour movement and community groups to show Harper that public services are important and that Canadians rely upon them.

On September 15<sup>th</sup>, PSAC held a national day of action to show how "We Are All Affected." Thousands of federal public servants gathered across Canada in a show of solidarity.

This event is not an isolated action; it joins countless demonstrations, rallies, Labour Day, MP meetings, letter writing campaigns, petitions and many more democratic mobilizing activities.

What is key in these actions is the turnout of our membership. Seeing thousands of our members at events shows the public that these cuts are truly detrimental, and to this government that our members are taking a stand. Our strength is in our solidarity!
